No. 7577. EXCHANGE OF NOTES CONSTITUTING AN AGREEMENT¹ BETWEEN THE UNITED STATES OF AMERICA AND CANADA RELATING TO WINTER MAINTENANCE OF HAINES ROAD. OTTAWA, 6 MARCH 1964

I

The American Ambassador to the Canadian Secretary of State for External Affairs

EMBASSY OF THE UNITED STATES OF AMERICA

No. 269

Ottawa, March 6, 1964

Sir,

I have the honor to refer to the Exchange of Notes between the Secretary of State for External Affairs and the Ambassador of the United States dated January 16 and 17, 1957,² which constitutes an agreement for the winter maintenance of the Haines-Fairbanks Pipeline and for the associated winter use and maintenance of portions of the Haines Road, as most recently extended and modified by the agreement contained in the Embassy's Note No. 141 of December 22, 1961, and the Department's reply of January 26, 1962.³

With the expiration on July 1, 1963 of the most recent agreement, it has become necessary to reach a new agreement. This should take into account the establishment in 1962 of a new pumping station⁴ and the recent developments, which were the subject of the Department's Note of October 24 and the Embassy's reply of October 30, 1963,⁵ concerning new arrangements for the clearance of the central portion of the road on an experimental basis during the 1963-64 winter season. Accordingly, I have the honor to propose that our Governments agree as follows :

- (a) The portion of the road between Haines Junction, Yukon Territory, and Mile 94 (Blanchard River Pumping Station) will be regularly cleared by an agency of the Canadian Government. All costs of this continuous winter maintenance will be reimbursed to the Canadian Government by the United States Army, Alaska;

¹ Came into force on 6 March 1964 by the exchange of the said notes.
