No. 7683. EXCHANGE OF NOTES CONSTITUTING AN AGREEMENT¹ BETWEEN THE UNITED STATES OF AMERICA AND AUSTRALIA RELATING TO SPECTROMETRIC RESEARCH. WASHINGTON, 14 AND 17 AUGUST 1964

I

The Department of State to the Australian Embassy

The Department of State refers the Embassy of Australia to discussions which have taken place between officials of the United States Bureau of Mines and of the Embassy with regard to the request of the Australian Government for the services of a research chemist from the Bureau of Mines for a period of approximately one year for the purpose of spectrometric research.

Subject to the conditions set out herein, the Bureau of Mines (Bureau) will be prepared on request from the Australian Commonwealth Scientific and Industrial Research Organization (C.S.I.R.O.) to assign Mr. Robert A. Friedel, Research Chemist (Physical) for a period of approximately one year, including travel time from Pittsburgh, Pennsylvania, to Sydney, Australia, and return, to observe and exchange ideas and to otherwise co-operate in research and studies with the staff of the C.S.I.R.O. The Bureau will retain Mr. Friedel on its payroll and will pay him at the salary rate that would be in effect and applicable if he continued in his regular post of duty with the Bureau.

The Bureau would wish the C.S.I.R.O.—

- (a) to give the Bureau at least ten (10) days' notice of the date on which Mr. Friedel should arrive in Sydney ;
- (b) to advance the sum of \$9,300 in United States currency by check payable to the Treasurer of the United States and to forward the check through the Department of State for crediting to the account of the Bureau. These funds will be used solely for paying Mr. Friedel's salary during his assignment ;
- (c) to allow Mr. Friedel to study the C.S.I.R.O.'s spectral research methods in their laboratories and to provide for the exchange of information and ideas contemplated under this agreement.

¹ Came into force on 17 August 1964 by the exchange of the said notes.
