EMBASSY OF THE UNITED STATES OF AMERICA
WELLINGTON

July 9 1968

Excellency,

I have the honor to refer to our recent discussions concerning the provision of a facility in New Zealand for use by the United States Air Force in a space vehicle tracking program. The object of this program would be to facilitate space flight operations contributing to the advancement of scientific knowledge through the optical observation of earth-orbiting space vehicles ; the application of this knowledge to the direct benefit of man ; and the development of space vehicles of advanced capabilities, including manned space vehicles.

I now have the honor to propose that the provisions contained in the attached Memorandum of Understandings shall apply to this program.

If the proposals contained in the present note, and the understandings set out in the attached Memorandum, are acceptable to the Government of New Zealand, I have the further honor to suggest that this note and your reply thereto indicating such approval should constitute an agreement

¹ Came into force on 9 July 1968 by the exchange of the said notes.
