EXCHANGE OF LETTERS CONSTITUTING AN AGREEMENT¹ BETWEEN DENMARK AND THE EUROPEAN ECONOMIC COMMUNITY CONCERNING CONCESSIONS FROM THE EUROPEAN ECONOMIC COMMUNITY ON TUNA

I

EUROPEAN ECONOMIC COMMUNITY

Delegation of the commission to the GATT Trade Negotiations

Geneva, 30 June 1967

Sir,

On the occasion of the multilateral trade negotiations held under GATT² at Geneva, the European Economic Community granted its negotiating partners the concessions specified in annex I on tuna under tariff heading ex 03.01 B I b) of the common customs tariff, "subject to observance of the reference price".

I am able to give the following particulars on the manner in which this reference price will be applied:

1. The level of the reference price shall be fixed at 350 units of account per metric ton. This price relates to "albacore-yellowfin" whole tuna weighing more than three kilogrammes.

In the case of species and varieties of tuna other than "albacore-yellowfin" the reference price shall be multiplied by one of the corrective coefficients specified in annex III.

In the case of "dressed" and "gilled and gutted" tuna, corrective coefficients fixed at 1.24 and 1.14 respectively shall be applied.

2. The reference price shall enter into force simultaneously with the application of the concessions and shall remain at the level specified in paragraph 1 for a period expiring on 1 July 1970.

Upon the expiry of this period, the level of the reference price may be modified whenever a modification is deemed necessary in the light of changes in the factors determining tuna prices on the markets of the Community and after the Government of Denmark has been consulted.

¹ Came into force on 1 July 1967.
