The Government of the French Republic and the Government of the German Democratic Republic,

Desiring, on the basis of equality of rights and mutual advantage, to encourage and intensify economic, industrial and technical cooperation, to which they attach great importance for the development of their mutual relations,

Wishing to make effective use of the economic and technical potential of the two States,

Recognizing the need to conclude long-term agreements and arrangements with a view to establishing lasting cooperation,

Article 2

The two Governments may, under this Agreement, conclude other cooperation agreements in particular sectors.

Article 3

The two Governments shall encourage initiatives aimed at the conclusion of contracts and arrangements in accordance with this Agreement between French organizations and firms, on the one hand, and authorized organizations and enterprises of the German Democratic Republic, on the other hand, and shall promote the execution of such contracts and arrangements.

Article 4

The two Governments shall, when it is mutually advantageous, encourage projects relating to economic, industrial and technical cooperation on third markets between the organizations and enterprises mentioned in article 3.
