AGREEMENT

BETWEEN

**THE PREPARATORY COMMISSION FOR THE COMPREHENSIVE
NUCLEAR-TEST-BAN TREATY ORGANIZATION
(CTBTO)**

AND

**THE UNITED NATIONS EDUCATIONAL, SCIENTIFIC
AND CULTURAL ORGANIZATION
(UNESCO)**

Agreement

between

The Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization (hereinafter referred to as "CTBTO"), P.O. Box 1200, 1400 Vienna, Austria, represented by its Executive Secretary Mr Tibor Tóth,

and

The United Nations Educational, Scientific and Cultural Organization (hereinafter referred to as "UNESCO"), 7, place de Fontenoy, 75352 Paris 07 SP, France, represented by its Director-General, Ms Irina Bokova.

WHEREAS the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization (hereinafter "the Commission") was established for the purpose of carrying out the necessary preparations for the effective implementation of the Comprehensive Nuclear-Test-Ban Treaty, including its verification regime that includes the establishment of the International Monitoring System (IMS) of 337 facilities to detect the signs of a nuclear explosion underground, in the atmosphere or in the oceans;

WHEREAS the Intergovernmental Oceanographic Commission (IOC) of the United Nations Educational, Scientific and Cultural Organization (hereinafter "UNESCO") as a body with functional autonomy within UNESCO as stated in Article 1 of its Statutes was established to promote international and inter-agency cooperation and to coordinate programmes in research, sustainable development, protection and capacity-building in improved management of the marine environment, including development of tsunami early warning and mitigation systems;

WHEREAS IMS data received by the Commission have a variety of civil and scientific applications which could contribute to sustainable development, human welfare and research on ocean processes and marine life;

WHEREAS the Commission and UNESCO recognize the necessity for achieving, where applicable, effective coordination of activities and services of the Commission and UNESCO, with a view to avoiding unnecessary duplication of such activities and services, and agree to cooperate closely on matters of mutual interest;

WHEREAS the Commission and UNESCO recognize similarities in some of their products and services in the area of capacity-building in developing States, and resulting from decisions taken by the Parties of this Memorandum of Understanding following the tsunamigenic earthquake off Sumatra in the Indian Ocean on 26 December 2004;

WHEREAS the Commission recognizes the mandate given by its Twenty-Seventh Session to provide IMS data to Tsunami Warning National Centres recognized by UNESCO;

WHEREAS this offer was in response to a request from the IOC of UNESCO;

WHEREAS the Commission and UNESCO seek to derive further benefits for their user communities which may result from similarities in some of the products and services offered by the two Parties, or from some overlaps in the user communities of the two Parties;

WHEREAS the Commission and UNESCO are each participating in the initiative for the institutions of the United Nations system to deliver as one;

NOW, THEREFORE, the Commission and UNESCO have decided to conclude an agreement for cooperation and have agreed as follows:

Article I – Cooperation and consultation

1. The Commission and UNESCO agree that with a view to facilitating the effective attainment of the objectives set forth in their respective constitutional instruments and decisions of their respective governing bodies, they will act in close cooperation with each other and will consult each other regularly in regard to matters of common interest.
2. The Commission and UNESCO agree to coordinate, where appropriate, their activities under any of the topics set out in Article IV below.
3. In all cases where either organization proposes to initiate a programme or activity on a topic in which the other organization has or may have a substantial interest, the first Party shall consult the other before finalizing the scope of the programme or initiating the activity.

Article II – Reciprocal representation

1. Representatives of UNESCO shall be invited to attend the sessions of the Commission and to participate without vote in the deliberations of that body and, where appropriate, of its working groups, with respect to items on their agenda in which UNESCO has an interest.
2. Representatives of the Commission shall be invited to attend sessions of the IOC Assembly of UNESCO and to participate without vote in the deliberations of that body, and, where appropriate, of its subsidiary bodies, with respect to items on their agenda in which the Commission has an interest.
3. Appropriate arrangements shall be made by agreement from time to time for the reciprocal representation of the Commission and UNESCO at other meetings, workshops, training courses and the like, convened under their respective auspices, which consider matters in which the other organization has or may have an interest.

Article III – Exchange of information and documents

1. Subject to such arrangements as may be necessary for the safeguarding of confidential material, the Provisional Technical Secretariat of the Commission and the Secretariat of UNESCO shall keep each other fully informed concerning all projected activities and all programmes of work which may be of interest to the other Party.
2. The Commission and UNESCO recognize that they may find it necessary to apply certain limitations for the safeguarding of confidential information furnished to them. They therefore agree that nothing in this Agreement shall be construed as requiring either of them to furnish such information as would, in the judgement of the Party possessing the information, constitute a violation of the confidence of any of its Members or anyone from whom it has received such information or otherwise interfere with the orderly conduct of its operations.

Article IV – Scientific cooperation and exchange of data

1. Both Parties shall keep the other Party informed of its plans for any technical training courses, including regional technical training courses, in which there is an overlap in the technical subject matter to be offered and in the target geographical region with a view to agreeing to joint venues and training programmes where this is in accordance with the missions of the Parties. When a joint venue is agreed upon, the Parties shall take measures to jointly plan the schedule and technical programme for those parts where there is technical overlap.
2. Each Party shall keep the other Party informed of its plans for the development of technical training materials, including e-learning technical training material, in which there is an overlap in the technical subject matter to be offered by the other Party. The Parties shall take measures to prepare joint technical training material where this is in accordance with the respective missions of the Parties.
3. Each Party shall keep the other Party informed of its plans for capacity-building in developing States in which there is an overlap in the technical field and the target geographical region between the two Parties. The Parties shall take measures to integrate the approach to capacity-building where there is substantial overlap in the technical field and target geographical region.
4. Both Parties shall discuss possible technical modalities for potential future developments in the transmission of near-real-time seismic and other waveform data relevant to their work.
5. Both Parties shall exchange information on issues raised by the variety of formats and protocols for the exchange of seismic and other waveform data in their respective areas of activity and advise their user communities of measures which may be taken to improve interoperability.
6. Both Parties shall endeavour to ensure the appropriate international visibility for the Parties of their contribution to the tsunami warning effort. Each Party shall keep the
